*Need For and Use of Information:* TVA, serving in its regulatory capacity, uses this financial and statistical information to monitor each distributor's current financial position and to forecast requirements for reasonable levels of resources for renewals, replacements, and contingencies. The data from this information collection is used by TVA organizations (Regulatory Assurance, Commercial Energy Solutions, Treasury and Risk, Regional Relations and Transmission and Power Supply) and the TVA Board of Directors to assist in making management decisions concerning electric power rates, financing the TVA power generating and transmission system, and other long-term plans. If this information collection is not conducted, TVA would be severely hampered in fulfilling its responsibilities to Congress under Section 11 of the TVA Act of 1933 to "permit domestic and rural use [of electricity] at the lowest possible rates." TVA has deployed the new Financial Information & Regulatory System Tool (FIRST) to streamline data collection and reduce the burden on the public.
